**Access to the congress is done only on the basis of the badge,
please wear the badge.**

Dear colleagues, dear friends

The Romanian Society of Coloproctology is celebrating this year its 14 years of existence. It has been a great journey that started in 2010 in Timisoara by a group of enthusiastic surgeons and gastroenterologist with the aim was to foster cooperation for the benefit of patients suffering from colorectal diseases. Our Society grew beautifully, related to the European Society of Coloproctology and organized successful Congresses on a yearly basis until the outbreak of COVID. After two difficult years and an OLNINE Congress organized in 2020 mainly to give hope to its members and close

the ranks together, the first post-COVID Congress was held in Bucharest as a hybrid meeting. This year the Society comes back to Cluj-Napoca where it organizes its XIIth Congress with in-person only attendance and with a rich program that aims to satisfy the most exigent requirements.

More that in any previous meeting, the message of this Congress is multidisciplinary and cooperation. There are six surgical-gastroenterological joint meetings in which the common subjects are discussed and debated in interactive sessions under the supervision of experienced chairmen and panelists. The topics covered during the sessions are interesting, sometimes hotly debated, with deep roots in the clinical practice, covering wide areas of our practice and involving a plethora of specialities. We have invited to come on stage with us not just surgeons and gastroenterologists but also anesthesiologists, radiologists, oncologists, radiotherapists, geneticists, pathologists, nurses, psychologists and representatives of the patients' organisations because, just like our specialities, medicine is multifaceted and deeply interconnected.

The Society's Congress is a celebration of our profession and we invited the very best to take part. We have the honour to summon together more that 65 national speakers, among the best professionals in the country, that will present their experience in invited lectures, stat-of-the-art presentations, key-note lectures and video vignettes. Furthermore, other 13 well known international experts will present state-of-the-art lectures and invited presentations on selected topics in a carrousel of informations to convince you that the time invested in this meeting was well spent.

The third day of the Congress is reserved to hands-on training courses and masterclasses. Benefiting from the state-of-the-art educational facilities offered by the University of Medicine and Pharmacy "Iuliu Hatieganu" Cluj-Napoca, our honourable partner, and with the support of renowned tutors and trainers, the participants will have the opportunity to perform by themselves the procedures seen or discussed about at the Congress.

Last but not least, the location of the Congress, in the middle of the city and within an integrated hotel and Conference room facility together with the mild climate from mid-April, the nice surprises prepared at the Opening Ceremony and the elegant Presidential Dinner should contribute to the success of this meeting.

Dear colleagues and friends, I am warmly proposing you to come together and celebrate with us at this Congress of Coloproctology, of multidisciplinary, of cooperation, of friendship, of multiculturality.

Come to Coloproctology!

Come to Cluj-Napoca!

Yours sincerely,

Assoc. Prof. Dr. Vasile Bințișan

PROGRAM
National Congress of Coloproctology
Cluj-Napoca, 2024

Thursday 11th April 2024

Atena Hall

Viena Hall

Introduction and welcome 8.00-8.15

8.15 – 8.50 Free papers session

CHAIR: Mihai Ciocirlan, Voicu Rednic, Cătălin Sfarti

Endoscopic resection of large colorectal polyps- a retrospective study

Rares Orzan, Cristina Pojoga, Voicu Rednic, Geza Molnar, Nadim AlHajjar, Andrada Seicean.

Ischemic colitis- the outcome in a tertiary medical center

Irina Dragomir, Cristina Pojoga, Voicu Rednic, Geza Molnar, Nadim AlHajjar, Andrada Seicean.

The frequency of colorectal cancer as cause of retoragia - a single center experience

Laura Huiban, Carol Stanciu, Cristina Maria Muzîca, Tudor Cuciureanu, Oana Petrea, Ștefan Chiriac, Ana Maria Sîngeap, Irina Gîrleanu, Raluca Avram, Ioana Damian, Sebastian Zenovia, Camelia Cojocariu, Cătălin Sfarti, Anca Trifan.

Therapy experiences among patients with inflammatory bowel disease-related iron deficiency anemia - a real life study

Ștefan Chiriac, Laura Huiban, Carol Stanciu, Cristina Maria Muzîca, Tudor Cuciureanu, Oana Petrea, Ana Maria Sîngeap, Irina Gîrleanu, Raluca Avram, Ioana Damian, Sebastian Zenovia, Remus Stafie, Adrian Rotaru, Camelia Cojocariu, Cătălin Sfarti, Anca Trifan.

9.00 – 11.00. Colorectal polyps

CHAIR: Marcel Tanțău, Gabriel Becheanu, Dan Cristian

Round table: Endoscopic and surgical treatment of colorectal polyps

9.00-9.15 The difficult polypectomy

Cristian Nedelcu

8.15 – 9.00 The young coloproctologist session

CHAIR: Florin Graur, Cristian Blajut, Ionuț Negoi

Interactive case presentation.

Navigating Complexity: Insights into middle rectal cancer with liver metastasis

Young ARCE initiative group: *Alina Ioana Năstase-Pușcașu, Clarisa Bîrlog, Draga Mandi, Flaviu Faur, Horea Boțșe, Nicoleta Leopa, Octavian Enciu, Cătălin Pîrîianu, Ruxandra Marian, Sandu Aprodu, Silviu Makkai, Ștefan Paiticsi*

Free papers

Local recurrence after curative resection in patients with colon cancer

Raluca Zaharia, Gabriel Dimofte

The influence of wound infiltration on postoperative pain reflected by interleukin levels in open colorectal surgery: a randomized comparative pilot study.

Apostu Raluca Cristina, Cocu Simona, Leahu Crina, Boldiș Alexandra, Ștefănescu Elena, Scurtu Răzvan

9.00 – 11.00 Improving surgical outcomes in colorectal cancer

CHAIR: Cătălin Copăescu, Viorel Scripcariu, Răzvan Popescu

9.00-9.15 Complete excision of the mesocolon for colonic cancer

Kenneth Campbell

9.15-9.30 New insights in endoscopic dissection of premalignant rectocolonic lesions

Mihai Ciocirlan

9.30-9.45 Endoscopic management of postoperative anastomotic site hemorrhage in colorectal surgery

Florin Turcu

9.45-10.00 Quality criteria for polypectomy. The Pathologist talks

Gabriel Becheanu

10.00-10.15 Surgical resection of complex colonic polyps

Radu Seicean, Vasile Bințișan

Face to face. Local excision for rectal polyps and early rectal cancer. Endoscopic submucosa dissection vs surgical trans-anal excision

10.15-10.30 Endoscopic submucosal dissection

Marcel Tanțău

10.30-10.45 Transanal endoscopic surgical resection

Vasile Bințișan

Free papers:

Optimizing resource allocation: the imperative of adequate funding for minimally invasive surgical innovation in colorectal cancer management.

Ionuț Negoï, Mircea Beuran, Claudiu Turculeț, Victor Tomulescu, Gabriel Constantinescu, Traian Pătrașcu

9.15-9.30 Standardization of ELAPE for abdominoperineal resection of the rectum

Viorel Scripcariu

9.30-9.45 Complications of minimally invasive colorectal surgery

Emre Balik

9.45-10.00 Multivisceral resection for rectal cancer

Erman Aytac

10.00-10.15 Miocutaneous flaps for pelvic and perineal reconstruction after extensive resection of advanced rectal cancer

Valentin Muntean

10.15-10.30 Transanal approach in the surgery of rectal tumors: an experience of 600 cases

G. Bathori, A. Gyorgy, L. Barabas, A. Zarand

Free papers:

Transanal total mesorectal excision (TaTME) – single center, single team initial experience.

S Tudor, Monica Lăcătuș, D. Gavrilă, Simona Manciu, Corina Minciună, A. Tonea, A. Diaconescu, C. Andras, O. Bitere, Cătălin Vasilescu

Anastomosis leak in right colectomy: a comparative analysis of mechanical staplers versus hand-sewn techniques.

Bogdan Baboi, G Dimofte

Vascular resection for colorectal cancer.

Radu Zamfir, L. David, Maria Șerban, Ioana Danciu, Al Agbari Khery, V. Brașoveanu

11.00 - 11.30 Coffee break

11.00-11.15 Educational event with the support of **JOHNSON & JOHNSON**

New insights in IBD

Cristian Gheorghe

11.00 - 11.30 Coffee break

11.30-13.30 MDT for management of colon cancer CHAIR: Eugen Dumitru, Vlad Herlea, Florin Grama

11.30-11.45 A standardized approach for endoscopic diagnosis and preoperative workup in patients with colonic cancer

Eugen Dumitru

11.45-12.00 Imaging for staging of colonic cancer

Diana Feier

12.00-12.10 Preoperative prehabilitation of patients with colorectal cancer. The anesthesiologist's view.

Cristina Petrișor

12.10-12.20 Perioperative nutrition in patients with colorectal cancer. The gastroenterologist's approach

Alina Tanțău

12.20-12.35 Principles of oncologic surgery in colonic cancer

Răzvan Popescu

12.35-12.50 Chemotherapy in colonic cancer.

What is new in 2024

Monica Hoge

12.50-13.05 Pathologic evaluation of the resection specimens. The pathologist' role.

Vlad Herlea

Free papers.

Fundeni Clinical Institute – 11 years experience in open and minimally invasive surgical treatment of colonic tumors

M. Eftimie, S. Manciu, B. Trandafir, E.M. Vrabie, O.M. Stănciulea, Cătălin Vasilescu

13.30 – 14.00 State-of-the-art lecture.

Robotic surgery in colonic cancer

Kenneth Campbell

14.00 – 14.30 Lunch break

14.00-14.15 Educational event with the support of

ALFASIGMA

Low volume solution for an optimal bowel preparation

Grad Simona

14.00 – 14.30 Lunch break

14.30 – 16.00 Rectal cancer

CHAIR: Cristian Gheorghe, Cătălin Vasilescu, Călin Cainap

ROUND TABLE. Multidisciplinary management of rectal cancer

14.30-14.45 Endoscopy and EUS for assesment of rectal cancer

Adrian Săftoiu

14.45-14.55 Radiotherapy for rectal cancer, update 2024

Claudiu Hopirtean

14.55-15.10 MRI assessment of rectal cancer before and after RT

Ferdinand Bauer

15.10-15.20 Hibrid imaging in rectal cancer

Doina Piciu

15.20-15.35 Watch and wait in rectal cancer.

Between strong believes and strong evidences

Gabriel Dimofte

15.35-15.50 Rectum cancer surgery at Fundeni Clinical Institute. An institutional perspective
Cătălin Vasilescu

16.00 – 16.20 State of the art lecture

Intersphincteric resection for rectal cancer: debates and consensus in 2024.

Seon-Hahn KIM

16.20 – 16.40 State of the art lecture

Organ preservation after chemo-radiation therapy in rectal cancer

Hans de Wilt - ONLINE

16.45 – 17.15 Coffee break

16.45-17.00 Educational event with the support of **TAKEDA**

Filling the gap in CPAF

George Pariza

16.45 – 17.15 Coffee break

17.15 - 18.45 Multidisciplinary treatment of metastatic colorectal cancer

CHAIR: Irinel Popescu, Nadim Al-Hajjar, Zeno Spârchez

17.15-17.45 *Key-note lecture.* Treatment of hepatic colorectal metastases. When is liver-first approach indicated? Is there a place for liver transplantation?

Irinel Popescu

17.45-18.00 Chemotherapy for metastatic colorectal cancer

Călin Cainap

18.00-18.15 Percutaneous ablation of colorectal cancer liver metastases

Zeno Spârchez

18.15-18.30 Surgical resection of hepatic colorectal metastases

Florin Botea

18.30-18.45 Complete citoreduction and HIPEC for peritoneal metastatic colorectal cancer

Adrian Bartos

17.15 – 18.45 Stoma care in 2024

CHAIR: Valeriu Surlin, Radu Seicean, Romeo Chira

17.15-17.25 How to present to patients the need for stoma

Cristina Pojoga

17.25-17.35 The Romanian National Stoma Care Program. Update 2024

Elena Cosma

17.35-17.45 The challenges of stoma care

Geta Păsărin

17.45-17.55 Morbidity of protective ileostomy. An analysis of 50 consecutive cases

Vlad Făgărășan, Tamas Rusz, Vasile Bințișan

17.55-18.05 Is it possible to avoid the need for protective ileostomy after low anterior resection of the rectum?

Florin Grama

18.05-18.15 Endoscopic ultrasound guided assessment and treatment of pelvic collections in patients with diverting stomas after low rectal resection

Romeo Chira

18.15-18.25 Reversal after Hartman procedure. Challenges, obstacles, results.

Valeriu Surlin

18.25-18.35 Surgical management of parastomal hernia

Mircea Lica

Free papers

Laparoscopic Hartmann's reversal: Fundeni Clinical Institute experience

Andrei Diaconescu, Daniel Gavrilă, Corina-Elena Minciuna, Stefan Tudor, Monica Lăcătuș, Aurel Tonea, Cătălin Vasilescu

19.00 – 20.00 Opening Ceremony

- Message from the President of the Romanian Society of Coloproctology – *Prof. Dr. Cristian Gheorghe*
- Message from the President of Congress – *Assoc. Prof. Dr. Vasile Bințișan*
- Message from the Rector of the University of Medicine and Pharmacy “Iuliu Hațieganu” Cluj-Napoca – *Prof. Dr. Anca Buzoianu*
- Message from the Italian Unitarian Society of Coloproctology - *President Prof. Dr. Pasquale Talento*
- Message from the European Society of Coloproctology - *Prof. Dr. Erman Aytac*, Vice-President of the Research Committee of ESCP

Special Guest Lecture: ESCP research programmes in coloproctology - *Prof. Dr. Erman Aytac*

20.00 – 21.30 Welcome cocktail (Restaurant Grand Hotel Napoca access is only based on the badge)

Atena Hall

8.00 - 09.00 Endoscopy video session

CHAIR: Marcel Tanțău, Adrian Săftoiu, Mihai Ciocirlan, Bogdan Mateescu

Postpolypectomy bleeding - Always look over your shoulder

Ștefan Chiriac, Robert Năstase, Anca Trifan, Cătălin Sfarti

A case series of underwater EMR

Adrian Ionut Saizu, Roxana Elena Saizu, Cristian Gheorghe

Find the spurter - endoscopic management of diverticular bleeding

Andreea Bota, Daniela Dumitrașcu, Elena Mirela Ionescu, Adrian Săftoiu, Cristian George Tieranu

Crohn's disease postoperative perianastomotic leakage successfully treated with infliximab and antibiotics.

Adelina Musa, Mihai Musa, Andrei Ovidiu Olteanu, Adrian Săftoiu, Cristian George Tieranu

Immunotherapy colonic complication for melanoma treatment

Raluca Jeler, Rares Orzan, Călin Cainap, Cristina Pojoga, Andrada Seicean.

Colonic tumor presented as intragastric fistulized abscess

Laura Baraian, Voicu Rednic, Andrada Seicean, Cristina Pojoga.

09.00 - 11.00 Round Table - Emergencies in coloproctology.

CHAIR: Anca Trifan, Cristian Gheorghe, Adrian Goldiș, Florin Iordache

09.00-09.15 Management of acute lower gastrointestinal bleeding. Guidelines in clinical practice

Cristian Gheorghe

09.15-09.30 Ischemic colitis: Diagnosis and management

Dan Gheonea

09.30-09.45 Pseudomembranous colitis. Update on diagnostic and treatment

Cătălin Sfarti

Viena Hall

8.00 - 09.00 Video session - learning from the experts. Step-by-step demonstration of surgical technique.

PANEL: Valentin Calu, Florin Zaharie, Adrian Miron

08.00-08.15 Laparoscopic right hemicolectomy
Florin Gaur

08.15-08.30 Laparoscopic left hemicolectomy
Calu Valentin

08.30-08.45 Anterior resection of the rectum
Florin Zaharie

Free papers. Video vignette

08.45-08.52 Total mesorectal excision in rectal cancer

Ovidiu Budisca

08.52-09.00 Difficult laparoscopic colectomy in chronic stenosing diverticulitis

Valeriu Surlin

9.00 - 11.00 Genetics in colorectal cancer

CHAIR: Adrian Trifa, Liana Gheorghe, Andrei Ungureanu

09.00-09.15 An overview of genetic testing for colorectal cancer

Adrian Trifa

09.15-09.30 Which patients should be gene tested for colorectal cancer?

Andreea Catana

09.30-09.45 Surgical treatment of familial adenomatous polyposis

Traian Dumitrașcu

09.45-10.00 Surgical management of colorectal cancer in Lynch syndrome

Oana Stănciulea, Iulian Mosteanu, Irinel Popescu

10.00-10.15 The influence of genetics on response to chemotherapy

Andrei Ungureanu

Debate: Management of acute diverticulitis

09.45-10.00 Conservative management, *Anca Trifan*

10.00-10.15 Surgical treatment, *Florin Iordache*

Debate: Management of ulcerative colitis in emergency setting

10.15-10.30 Medical treatment. *Adrian Goldiș*

10.30-10.45 Surgical treatment. *Traian Dumitrașcu*

Free papers.

Management of obstructive left colorectal cancer.

Marius Bica, Valeriu Surlin

10.15-10.30 Romanian Society for Lynch Syndrome: up-to-date

Oana Voinea

10.30-10.50 Round table: Management and genetic counselling of young patients with colorectal cancer

PANEL: *Adrian Trifan, Andreea Catana, Andrei Ungureanu, Oana Voinea*

Free papers.

The role of inflammatory markers in the

evolution of colorectal cancer, *Ovidiu Budisca*

11.00-11.30 Coffee break

11.00-11.15 Educational event with the support of **ABBVIE**

Rinvoq - Designed to reach ambitious goals in IBD, *Cristian Gheorghe*

11.00-11.30 Coffee break

11.00-11.15 Educational event with the support of **ROMBIOMEDICA**

Performance through innovation in technology, *George Mija*

11.30 – 11.50 State of the art lecture

Surgical treatment of pelvic organ prolapse

Pasquale Talento

12.00 -13.30 Pelvic motility disorders. Joint session with the Italian Society of Coloproctology.

CHAIR: *Vasile Drug, Teodora Surdea Blaga, Florin Grama*

12.00-12.15 Anorectal manometry for incontinence and dyssynergia

Roxana Saizu

12.15-12.30 The balloon expulsion test: indications, usefulness

Teodora Surdea Blaga

12.30-12.45 MRI defecography for anorectal motility disorders

Dana Georgescu

12.45-13.00 Biofeedback for anorectal motility disorders

Anca Dimitriu

13.00-13.15 Sacral neuromodulation and LARS syndrome

Luigi Bruscianno

13.15-13.30 Surgical treatment of rectovaginal fistula

Andrea Braini

12.00 – 13.30 Education in coloproctology and interventional endoscopy

CHAIR: *Victor Tomulescu, Marcel Tanțău, Adrian Săftoiu*

12.00-12.15 European Society of Coloproctology Educational Programs

Erman Aytac

12.15-12.35 *How to become Fellow of the European Board of Surgery. The ESCP's European Board of*

Surgical Qualification (EBSQ) examination - ONLINE

David Zimmerman

12.35-12.50 The status of minimally invasive colorectal surgery in Romania – LAPCO Romanian chapter

Victor Tomulescu, Dan Ulmeanu, Valentin Calu, Valeriu Surlin

12.50-13.00 An audit of LAPCO programme in the participating centers. The LAPCO Romanian Audit Task Force

Vasile Bințișan

13.00-13.15 ESGE Guidelines for endoscopic dissection

Marcel Tanțău

Free papers:

1. How LAPCO changed the surgical approach in our department. The Craiova experience.

Marius Bica, Valeriu Surlin

13.30 – 14.40 Lunch break

13.30 – 14.40 General Assembly of the Romanian Society of Coloproctology

14.40 – 15.00 State of the art lecture.

Topics in inflammatory bowel disease surgery

Ales Tomazic

15.00 – 16.30 Inflammatory Bowel Disease

CHAIR: Liana Gheorghe, Oana Stănciulea, Traian Dumitrașcu, Dan Gheonea

15.00-15.20 *Key-note-lecture.* Top 10 recent articles that every IBD gastroenterologist & surgeon should know
Liana Gheorghe

15.20-15.35 *State-of-the-art presentation* Anal fistula in Crohn's disease. Sharing insights and best practices

Michele Carvello – (ONLINE)

15.35-15.45 The use of ultrasound for diagnosis and monitoring of inflammatory bowel disease:
Anda Leș

15.45-15.55 Up-to-date on endoscopic dilatation of stenoses in Crohn' Disease
Cristian Gheorghe

15.55-16.05 Diagnosis and endoscopic treatment of dysplasia in inflammatory bowel disease
Bogdan Mateescu

16.05-16.20 Surgical management of Crohn's disease - how can we get better results.

Oana Stănciulea, Iulian Mosteanu, Irinel Popescu

16.20-16.25 The role of IBD patients' association
Isabela Grosu

15.00 – 16.30. Educational session in proctology

CHAIR: Cosmin Puia, Zeno Spârchez, Florin Grama

15.00-15.20 State-of-the-art presentation.

Cryptoglandular Fistula Updates

David Zimmerman – (ONLINE)

15.20-15.35 Ultrasound for evaluation of perianal fistulas

Zeno Spârchez

15.35-15.45 Sphincter saving treatment of perianal fistula

George Dindelegan

15.45-16.05 State-of-the-art presentation.

Anal US and puborectalis repair

Frederic Ris – (ONLINE)

16.05-16.15 OASIS/Traumatic sphincter injuries repair

Andrei Chitul

16.15-16.25 Surgical treatment of complex uro-genito-rectal fistulas

Florin Grama

16.30 – 17.00 Coffee break

16.30-16.45 Educational event with the support of **LILLY**

What is the role of histological remission in Ulcerative Colitis?

Cristian Gheorghe

17.00-19.00 Surgery for rectal cancer

CHAIR: Cătălin Copăescu, Cătălin Vasilescu, Ciprian Duta

17.00-17.15 *Key-note-lecture.* Robotic TME
Emre Balik

17.15-17.35 *State-of-the-art lecture.* Lateral pelvic lymph node dissection in subperitoneal rectal cancer- why, when and how?

Seon-Hahn KIM

17.00-19.00 Educational video-session in proctology

CHAIR: Valeriu Surlin, George Dindelegan

17.00-17.07 Sphincterotomy for anal fissure

Emilica Ciofic, Ștefan Cinciu

17.07-17.14 D'Hoore ventral mesh rectopexy

Bogdan Dumbrava, Florin Grama

17.14-17.21 Milligan Morgan haemorrhoidectomy & Rubber Band Ligation

Petronel Mustatea

17.35-18.20 Round table: How to perform the low anterior resection for cancer open, laparoscopic or robotic?

CHAIR: Cătălin Copeescu

PANEL: Viorel Scripcariu, Victor Tomulescu, Florin Grama, Valentin Munteanu

- Open approach – *Viorel Scripcariu*
- Laparoscopic approach – *Dan Cristian*
- Robotic approach – *Ciprian Duță*

Free papers

Topographic anatomy in MRI examination of the rectum and anal canal

Valentin Muntean

Transanal rectal surgery - initial experience

Cristi Tarta, Amadeus Dobrescu, Isaac Alexandru, Marco Marian, Aliteea Zavoianu, Ciprian Duță

Robotic versus open colorectal surgery: an audit on quality of resection

Ștefan Morarasu, Elena Florina Paiu-Spiridon, Cristian Livadaru, Ștefan Iacob, Wee Liam Ong, Bogdan Baboi, Bogdan Condurache, Raluca Zaharia, Ana Maria Musina, Cristian Ene Roata, Sorinel Lunca, Viorel Scripcariu, Emilio Morpurgo, Gabriel Mihail Dimofte

17.21-17.28 Ferguson haemorrhoidectomy
Stanculea Floris

17.28-17.35 Stapled haemorrhoidopexy
Eduard Giuvara, Daniel Cristian

17.35-17.42 Radio frequency ablation of haemorrhoids
Valeriu Surlin

17.42-17.49 HAL RAR procedure
George Pariza

17.49-17.56 Flaps in pylonidal disease
Claudiu Ungureanu

17.56-18.03 LIFT procedure
George Pariza

18.03-18.10 Gracilis muscle interposition for rectovesical fistula
Andrei Chitul, Florin Grama

Incidence of anterior rectal resection (LARS) and genital dysfunction after low abdomino-perineal and anterior resection- a retrospective study

C. Osman, F. AlShatarat, Ș. Morărașu, B. Băboi, R. Zaharia, W.L. Ong, K. Rouet, V. Zois, B.M. Condurache, A.A. Ivanov, Ș. Iacob, C.E. Roată, A.M. Mușină, S. Luncă, G.M. Dimofte

Safety and efficacy of laparoscopic colorectal resections by general surgeons with advanced laparoscopic skills in resource-limited settings
Al Aloul A, Diaconu V, Kover Z, Ulmeanu D

Is there a correlation between Clostridium difficile infection (CDI) and Anastomotic Leakage in Colorectal Cancer (CRC) patients who have undergone colectomy?

Wee Liam Ong, Baboi Bogdan, Iacob Stefan, Zaharia Raluca, Huluta Alexandra, Roxana Bargaoanu, Rouet Kevin, Vasileous Zios, Dr. Roata Cristian, Musina Ana-Maria, Velenciuc Natalia, Pruna Romulus Mihăiță, Morărașu Ștefan, Lunca Sorinel, Dimofte Mihail-Gabriel

please wear the badge.**

Romanian ESD Task-Force Hands-on training

Director: Marcel Tanțău

9.00 – 13.00 o'clock

Location: Centrul de Abilități Practice al UMF Cluj-Napoca, Str. Marinescu nr 23

Saturday 13th April 2024

Post-congress courses

Course 1. Masterclass in transanal endoscopic resection

Directors: *Vasile Bintintan, Cosmin Puia, Valeriu Surlin*

Collaborators: *Vlad Făgărășan, Raluca Apostu*

Location: Centrul de Abilități Practice al UMF Cluj-Napoca, Str. Marinescu nr 23

PROGRAM

9.00-9.15.00 Welcome message

9.15 – 12.00 Theoretical presentations

- The concept of TEO/TEM surgery
- Indications for TEO/TEM
- Selection of patients
- Preoperative preparations
- Intraoperative set-up, positioning of the patient
- Technique full-thickness / submucosal resection
- Closure of the rectal wall
- Postoperative outcome
- Interpretation of the pathological report
- Salvage radical surgery
- Discussions

12.00-12.30 Coffee break

12.30 – 16.30 Hands-on session on dry-lab lab

- Set-up of the proctoscope
- Manipulation of instruments
- Identification of the target lesion, defining the resection margins
- Resection of the target lesion
- Removal of the specimen. Fixation of the specimen for pathology
- Suturing of the rectal wall defect

16.30 – 16.45 Final evaluation

16.45 – 17.00 Closing remarks

** Description. The participants will be offered an immersion in the field of surgical transanal endoscopic resection of rectal tumors. There will be theory presentations, presentations of patients with cases with rectal adenomas/ adenocarcinomas operated with interactive discussions as well as a hands-on session working on specific dry-lab models in which the participants will exercise the techniques of resection and suturing.*

Course 2. Safety of colorectal anastomoses. A review of open and laparoscopic techniques

Directors: Radu Seicean, Florin Zaharie, Valentin Calu, Răzvan Popescu, Bogdan Diaconescu, Vasile. Bințișan

Collaborators: David Andras, Călin Popa, Ciprian Cucoreanu, Cătălin Ciuce, Vasile Mois, Diana Schlager, Alexandru Ene

Location: Centrul de Abilități Practice al UMF Cluj Napoca, Str. Marinescu nr 23

PROGRAM

9.00-9.15 Welcome message

9.15 – 11.00 Theoretical presentations

- General principles for performing a safe anastomosis.
- How to improve safety: ICG, lateral anastomosis.
- Anastomotic techniques – theoretical presentation of the technique.
 - Will be covered hand-sutured/stapled and open/laparoscopic intracorporeal
 - o Ileocolic anastomosis
 - o Colo-colic anastomosis
 - o Colorectal anastomosis

11.00 – 11.30 Coffee-break

11.30 – 16.45 Hands-on sessions - wet-lab exercises to perform ileocolic, colo-colic and colorectal anastomosis on appropriate ex-vivo organs (small/large bowel segments)

16.30 – 16.45 Final evaluation

16.45 – 17.00 Closing remarks

** Description: The participants will be offered an overview of the various anastomotic techniques used in colorectal surgery and will practice them in a wet-lab setting on appropriate animal organs. A variety of hand-sutured and stapled, open and laparoscopic anastomotic techniques will be demonstrated and exercised.*

Course 3 Endoscopic Polypectomy hands-on course (THERE ARE NO MORE PLACES AVAILABLE)

Directors: *Cristian Gheorghe, Andrada Seicean*

Nurses: *Costin Mangaru, Daciana Jucan, Daniela Dan, Renata Simon*

Location: Centrul de Abilități Practice al UMF Cluj-Napoca, str. Marinescu nr 23

PROGRAM

8.15-13.00

8.15-8.30 Registration

- 8.35-8.40 Introductory remarks, *Cristian Gheorghe, Andrada Seicean*
- 8.40- 9.00 Presentation of new endoscopic equipment for polypectomy, *Dragoș Aldea*
- 9.00-9.15 Definition, classification of polyps, *Eugen Dumitru*
- 9.15-9.30 Chromoendoscopy standard and virtual, *Simona Grad*
- 9.15-9.30 Tips and tricks for choosing the correct colonic polyp resection, *Andrada Seicean*
- 9.30-9.45 Quality of polypectomy, *Cristian Gheorghe*
- 9.45-10.00 Anticoagulants, antiagregants and polyp resection, *Vasile Drug, Radu Vulpoi*
- 10.00-10.15 Setting the electrocautery in polypectomy, *Voicu Rednic*
- 10.15-10.30 Postpolypectomy colonoscopic surveillance, *Cristina Pojoga*
- 10.30-13.00 Hands-on training
- 13.00-13.05 Closing remarks, *Andrada Seicean*

Course 4. Ano-rectal manometry Hands-on course on Anorectal Manometry

Directors: *Teodora Surdea Blaga, Anca Dimitriu, Roxana Saizu*

Location: Regional Institute of Gastroenterology and Hepatology, str Croitorilor 19-21

PROGRAM

8.30-8.45 Participants welcome and registration

- 8.45-8.50 Session opening: *Teodora Surdea Blaga, Anca Dimitriu, Roxana Saizu*
- 8.50-9.10 The anatomy and physiology of defecation and continence, *Roxana Saizu*
- 9.10-9.45 Diagnostic tests in incontinence and constipation (indications, utility), *Anca Dimitriu*
- 9.45-10.15 High-resolution anorectal manometry, *Teodora Blaga*

10.15–10.30 Coffee break

- 10.30-10.40 Patient 1 history and medical record evaluation with previous investigations
- 10.40–10.55 Digital rectal examination (DRE) + intrarectal balloon expulsion test
- 10.55-11.25 Conducting the investigation
- 11.25-11.45 Manometric recording analysis and interpretation of results
- 11.45-11.55 Patient 2 history and medical record evaluation with previous investigations
- 11.55-12.10 Digital rectal examination (DRE) + intrarectal balloon expulsion test
- 12.10-12.40 Conducting the investigation
- 12.40-13.00 Manometric recording analysis and interpretation of results
- 13.00-13.05 – Closing remarks

Course 5. Hands-on course in ultrasound of the digestive tract. Intestinal ultrasound: an excellent diagnostic tool for coloproctologists.

Directors: *Zeno Spârchez, Adrian Săftoiu, Romeo Chira*

Collaborators: *Claudia Hagiu, Anda Leș, Nicolae Rednic, Cristi Tieranu*

Location: Institutul Regional de Gastroenterologie și Hepatologie, sala Oliviu Pascu, Cluj-Napoca, strada Croitorilor nr. 19-21

Aims:

1. to accommodate with the transducers and settings of US systems for intestinal US
2. to get familiar with the transabdominal ultrasound examination techniques of the intestinal wall
3. To recognise the main abnormalities of the intestinal wall
4. To learn the examination technique of the anus and the perianal region
5. to learn the main indications of US guided interventional procedures

PROGRAM

08.30-08.40 Introduction; Defining the aims of the course, *Adrian Săftoiu*

08:40-09:00 US of the intestinal wall. Technical aspects (transducers, settings, US techniques).
Normal aspects and main abnormalities, *Claudia Hagiu*

09:00-09.20 Tumours of the small and large intestine. Any role for abdominal US? *Romeo Chira*

09.20-09.40 Diagnosis of acute intestinal conditions (appendicitis, diverticulitis, bowel obstruction, postoperative aspects). Can we rely on US(CEUS)?– tba, *Zeno Spârchez*

09:40-10:00 Coffee break

10:00-10:20 Intestinal ultrasound in inflammatory bowel disease. Additional role of CEUS and elastography, *Anda Leș*

10:20-10:40 Rectal tumors: diagnostic and staging using transrectal US, *Nicolae Rednic*

10:40-11:00 Role of transperineal and transrectal ultrasound in anal and perianal conditions,
Adrian Săftoiu

11:00-11:20 Interventional US for in colic and rectal pathology (biopsy of the intestinal and perintestinal lesions, drainages of pericolic collections), *Zeno Spârchez*

11:30-13:30 Practical activity

13:30-13:35 Closing remarks. *Zeno Spârchez*

**Access to the congress is done only on the basis of the badge,
please wear the badge.**

Clensia®

Pulbere pentru soluție orală

Special dezvoltat pentru colonoscopia de calitate superioară!

- ✓ Volum redus (2L)^{1,2}
- ✓ Curățare excelentă¹
- ✓ Mai puține bule^{1,2}
- ✓ Gust de lime²

Clensia® conține Macrogol 4000, sulfat de sodiu anhidru, simeticonă și electroliți.¹⁻³
Clensia® este indicat în golirea intestinului înaintea oricăror proceduri clinice care necesită un intestin curat, de exemplu endoscopie intestinală sau examen radiologic.
Clensia® este indicat la adulți.
